SUPPLEMENTAL DETAILED ACTION

Status of Claims

Claims 1-18 and 29 are currently pending.

Claims 1-18 are allowed and claim 29 is drawn to a nonelected invention.

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with R. Jenkins on 5/05/05.

The application has been amended as follows:

Cancel claim 29.

Allowable Subject Matter

Claims 1-18 are allowed.

The following is an examiner's statement of reasons for allowance: Phillips et al. (US 4734209) discloses several thiazole derivatives in a corrosion inhibitor, however there is no teaching or motivation to combine the Phillips reference with another reference containing the instant acyl amino acid derivative to form the instant corrosion inhibitor. None of the references teach or disclose the instantly claimed formulations for

Art Unit: 1751

corrosion-inhibiting emulsifying, lubricating or as a surfactant in organic hydrocarbon and/or water based system containing the instantly claimed acyl amino acid derivative and a thiazole derivatives.

Therefore it would not have been obvious to create the instantly claimed formulation at the time the invention was made in view of Phillips or any of the other references cited.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion
